**WHOLESALE PRICES FOR
MARKET GROWERS AND FLORISTS**

W. ATLEE BURPEE CO. Seed Growers

Please Note Change in Prices

Since printing this Blue List Catalog, severe shortages of some varieties of vegetable seeds have occurred, thereby making it necessary for us to advance prices on those listed below. These revised prices cancel those given inside this book. Because of short crops on other vegetables, we suggest that you order all your seeds now.

Order continued for Burpee's Seeds and Bulbs

[illegible]

All Seeds and Bulbs are sold under The Burpee Guarantee We guarantee the vitality and purity of Burpee's Seeds and Bulbs to the full amount of the purchase price. You can have your money back any time within a year if you are not satisfied with the results. Even with the highest quality seeds and bulbs, success in gardening depends largely upon cultivation, soil, and weather conditions. Therefore, in no case shall W. Atlee Burpee Co. be liable for more than the amount actually paid us for seeds or bulbs.

Dear Friends:

There is no need of my reminding you at this time of the serious condition of world affairs. This unsettled condition has affected the industry in which you and I are vitally interested.

Because seed houses in many countries cannot obtain their supplies from Europe, they have called on America to supply their seeds. This fact, combined with some crop shortages in many classes of vegetable seed in this country, has created a seed shortage that is very serious.

We have endeavored to retain, in our warehouses, sufficient seed to meet your requirements. We do not want to disappoint you by being unable to fill your seed orders, for we know how important it is for you to have the highest quality seed.

Won't you, therefore, please help us serve you by sending in your orders just as quickly as possible?

We want you to know that we appreciate all the orders that our friends are sending us, and we assure you that we shall continue to supply only the very best seeds that grow.

We expect to adhere throughout the winter and spring to the prices quoted herein, unless some causes beyond our control require a change, in which case we shall be governed by the market. All goods are offered subject to prior sale, and we reserve the right to change prices without notice if it should become necessary.

Faithfully yours,

David Burpee

BURPEE'S FORDHOOK FARMS AND EXPERIMENTAL GARDENS

Our Fordhook Farms are utilized largely for growing, testing and insuring the trueness-to-type of all the seeds we send out. Thousands of these tests are made annually as each strain is carefully compared with all similar strains in cultivation and the results properly recorded. This is really the most exacting part of our business as seed growers, and it has helped to make the reputation of Burpee's Seeds—the best seeds that grow.

Giant Ruffled Sweet Peas

*Most Beautiful of All—
Originated on Burpee's

Giant Ruffled Sweet Peas are Burpee introductions, developed on Burpee's Floradale Seed Farms in California. They are distinguished by the unusual duplexness and extra frilliness of the flowers. This gives a double appearance to the large, waved and ruffled flowers which makes them so distinct. They are greatly admired wherever seen and have won the highest honors in the keenest competition.

Spring Flowering Sweet Peas

Come into bloom, outdoors, between the Early and Giant Spencer classes. Plants are quite vigorous and what the flowers lack in size is made up by the heavy crop of blooms produced. Vines seem more heat resistant than other Sweet Peas. Under glass they are unusually free flowering and prolong the spring cutting season.

We offer three colors, each of which received an award in the All-America Selections for 1940:

3470 Blue Clear marine blue; free bloomer.

3479 Lavender Lovely soft shade of lavender.

3447 Rose Pink Beautiful rose-pink on white.

Any of these 3 separate colors:

Oz. 30¢; 4 ozs. \$1.05; lb. \$3.50.

Burpee's Early Flowering Sweet Peas

Varieties are arranged in each color class from deep to light shades

Burpee's Early Flowering Sweet Peas come into bloom 3 to 4 weeks earlier than the Summer Flowering varieties offered on pages 30 to 34. They are especially adapted for growing in frost-free sections and for earliest blooms outdoors in the North, and also valuable for winter flowering under glass. They are being planted more and more every year.

If you live in a locality where the late Sweet Peas have not done well for you, try some Early Flowering. They will bloom before the summer heat arrives. Sweet Peas do best in cool weather. If seed was not sown in the fall, sow as early in the spring as the ground can be prepared. They prefer an open, sunny location, and deep rich soil which must be well drained. Burpee's Sweet Peas are famous the world over as the "Best That Grow." The flowers are extra large, of perfect form and texture, well placed on long, strong stems, and usually produced in sprays of four.

½ lb. or more of any named Sweet Pea listed may be ordered at the lb. rate

Burpee's Famous Seed Farms and Experimental Grounds

Floradale Farms

Floradale Farms comprise hundreds of acres in the fertile Lompoc Valley, California—50 miles north of Santa Barbara. Seeds grown here have exceptional vigor, high vitality, and hardiness which assure sturdy growth and successful blooming wherever grown. Mild winters and long, cool summers are especially favorable for growing flower seeds. Plants have a long growing season and mature their seed during the dry, cool summer and fall.

Experimental work as well as seed growing is continually going on at Floradale. We are proud of the many new and valuable varieties we have originated on Floradale Farms; particularly notable are the Double Nasturtiums, Giant Ruffled Sweet Peas, Marigolds with Odorless Foliage, fertile hybrid Marigolds, new colors and shapes in Petunias, New Giant Chrysanthemum-like David Burpee Zinnias, and many more lovely flowers.

Fordhook Farms

At Fordhook Farms, many special strains of vegetables and flowers are produced. Here also are the largest and most complete Trial or Proving grounds in the world. Every variety of seed that we sell is tested for purity and vitality. In addition, we try out hundreds of varieties from foreign countries, making careful comparisons, and by hybridization and selection we are constantly improving the Quality of existing varieties and creating new ones. All this is done so that only the Best varieties and the Best Seeds that Grow can be offered to Burpee customers wherever they may be.

"Fordhook" long ago became a well-known and well-loved name among gardeners everywhere, for many of the famous Burpee introductions are named for the great Fordhook Farms—the original Burpee Seed Farms—located at Doylestown, near Philadelphia.

Hundreds of acres of flowers are grown for seed each year on Burpee's Floradale Farms. Picture above shows Marigolds, Asters and Zinnias
